PROFESSIONAL SUMMARY

Senior Flutter Developer and Technical Lead with 4+ years of experience designing and delivering production Android and iOS applications. Core expertise includes Flutter, Dart, Clean Architecture, Bloc, Firebase, REST APIs, and CI/CD, with experience leading teams of 4+ Flutter developers. Delivered measurable performance improvements, including nearly 50% application startup and nearly 50% shorter mobile release cycles through performance optimization and release automation.

PROFESSIONAL EXPERIENCE

ATOCINN SYSTEMS LAB PVT. LTD.

Team Lead

Hybrid

July 2025 – Present

- Led delivery across **3 production platforms** including WowCare, WowInventory, and JSW Vessel Management System, supporting feature development, technical delivery, and production application improvements.
- Mentored **4+ Flutter developers** through architecture discussions, code reviews, debugging, and technical guidance while maintaining consistent development practices and implementation standards.
- Architected and delivered **3+ production Flutter solutions** using **Clean Architecture, MVVM, Bloc, Cubit, SOLID, and GetIt**, reducing development cycles by nearly **40%**.
- Automated mobile release workflows using **GitHub Actions, Fastlane, and CI/CD**, reducing release cycles by nearly **50%** and improving deployment consistency across mobile releases.
- Integrated **1000+ REST endpoints** with Firebase, OAuth/JWT, analytics, and third-party SDKs, establishing reusable API communication and service integration across production applications.
- Improved application startup performance by approximately **40%** through rendering and memory optimizations, contributing to smoother cross-platform application performance.

Senior Software Developer

July 2024 – June 2025

- Led **4+ Flutter developers** while delivering **60+ production features** across PineWraps, WowInventory, and PathPulse, supporting feature development and technical implementation.
- Built **3+ scalable Flutter products** using **SOLID, Bloc, Cubit, GetIt, and layered architecture**, accelerating development and delivery by approximately **30%**.
- Standardized feature architecture and reusable development patterns, reducing feature integration time by approximately **30%** and improving consistency across application modules.
- Designed scalable API infrastructure using **Dio, Dependency Injection, and Repository Pattern**, improving maintainability and supporting efficient feature delivery.
- Optimized Flutter startup performance and rendering workflows, reducing application launch latency by approximately **40%** and improving runtime responsiveness.

Software Developer

March 2023 – June 2024

- Developed and maintained production Flutter applications by implementing responsive interfaces, reusable components, REST API integrations, and scalable application features.
- Implemented modular application features using **Clean Architecture, Bloc/Cubit, Dio, Repository Pattern, and Dependency Injection**, supporting maintainable and scalable Flutter application development.
- Collaborated with a **4+ member Flutter team** to deliver production features, troubleshoot application issues, integrate backend services, and improve overall application stability.

Intern – Software Developer

July 2022 – March 2023

- Developed backend services for the **Alexia Global** application using **Django REST Framework**, implementing JWT authentication, database models, REST APIs, and Flutter application integrations.

ADDITIONAL INFORMATION

- **Programming Languages:** Dart, Python, Java/DSA, Kotlin (Basic).
- **Mobile Development:** Flutter, Flutter Web, Android SDK, iOS, Material Design, Cupertino
- **Architecture:** Clean Architecture, MVVM, SOLID Principles, Repository Pattern, Modular Architecture, Dependency Injection, GetIt
- **State Management:** Bloc, Cubit, Riverpod, Provider, GetX.
- **Backend & Networking:** Django REST Framework, REST APIs, GraphQL (Basic), Dio, HTTP, JSON, WebSockets.
- **Firebase:** Authentication, Firestore, Cloud Messaging (FCM), Storage, Crashlytics, Analytics, Remote Config, APNs.
- **Databases:** Isar, Firestore, MySQL, SharedPreferences, Flutter Secure Storage.
- **Testing:** Unit Testing, Widget Testing, Integration Testing.

- **DevOps & Tools:** Git, GitHub, GitHub Actions, CI/CD, Fastlane, Jira, Android Studio, VS Code, Xcode, Antigravity.
- **Security & Other:** JWT, OAuth, SSL Pinning, Push Notifications, Platform Channels, Performance Optimization, Mobile Security, Code Review, Agile/Scrum, Technical Leadership.

EDUCATION

CHHATRAPATI SHIVAJI MAHARAJ UNIVERSITY

Master of Computer Applications (MCA)

2023 – 2025

UNIVERSITY OF MUMBAI

Bachelor of Science in Information Technology (B.Sc. IT)

2019 – 2022
